

Section 401 Water Quality Certification Public Notices

The Central Coast Water Board is currently reviewing applications for the following project for certification under Section 401 of the Clean Water Act. We encourage public comments on the proposed work, which will be considered in the decision. You may submit comments in writing on any of these projects to:

Central Coast Regional Water Quality Control Board
895 Aerovista Place, Suite 101
San Luis Obispo, CA 93401
Attention: 401 Coordinator

Project Applicant	John Grether – Grether Farming Co.
Applicant's Agent	Mike Simmons
Project Name	Casitas Ranch French Drain Restoration
Receiving Water	Casitas Creek
City/County	Ojai/Ventura
Public Notice	11/17/08 to 12/7/08
Project Description	

The purpose of this project is to stabilize the eroded southern stream bank and a damaged berm that directs a portion of the flow of Casitas Creek into a French drain.

The project activities include: installing rock rip-rap along a 14-foot section of the eroded southern bank and the adjacent berm. A new 20-foot wide, 12-foot long, and 1-2-foot high rock weir will be installed between rock weir number 3 and the French drain.

No mitigation was proposed for this project. The French drain conveys a portion of the flow of Casitas Creek into a habitat enhancement area, as part of a previous restoration activity.

A Categorical Exemption has been approved for this project.
